

JOLLY & CO

Industry:
Accountancy and taxation services

As an accounting firm, we have an objective to provide a of high standard of personal service to help our clients achieve their business and personal targets. It was important that we used a trusted service such as Platned to provide us with the right solutions we were looking for. Our company was looking to securely move our systems to the cloud and needed assistance in implementing SharePoint, Cloud backup solutions (requiring backup server data on a daily basis to the cloud), VOIP and VPN solutions.

This was successfully carried out by Platned and this service has been incredibly useful to integrate and streamline our data, giving us the flexibility to access files and folders anytime. Our emails, files, folders and telephone systems are now completely provided from cloud services allowing us to work as if in our office, anywhere. We are thoroughly pleased with the IT services provided and we are glad we had the opportunity to work with them.

Thank You.
John Thomas

Implementing SharePoint
Cloud backup solution for server
VOIP Solution
VPN Solution

Key Results for Jolly & Co Partnership
