

Crystal Reports to IFS Cloud Report Studio conversion service

Why Crystal Reports need to be replaced

- Crystal Reports support ends in IFS Cloud 25r2
- Integration remains temporarily available in 24r2 and 25r1
- All .rpt files must be moved into IFS Report Studio for future upgrades

The challenge for IFS customers

- Many organisations have hundreds of bespoke Crystal Reports
- Manual rebuilding can take days or weeks
- Upgrade projects are slowed by the workload involved

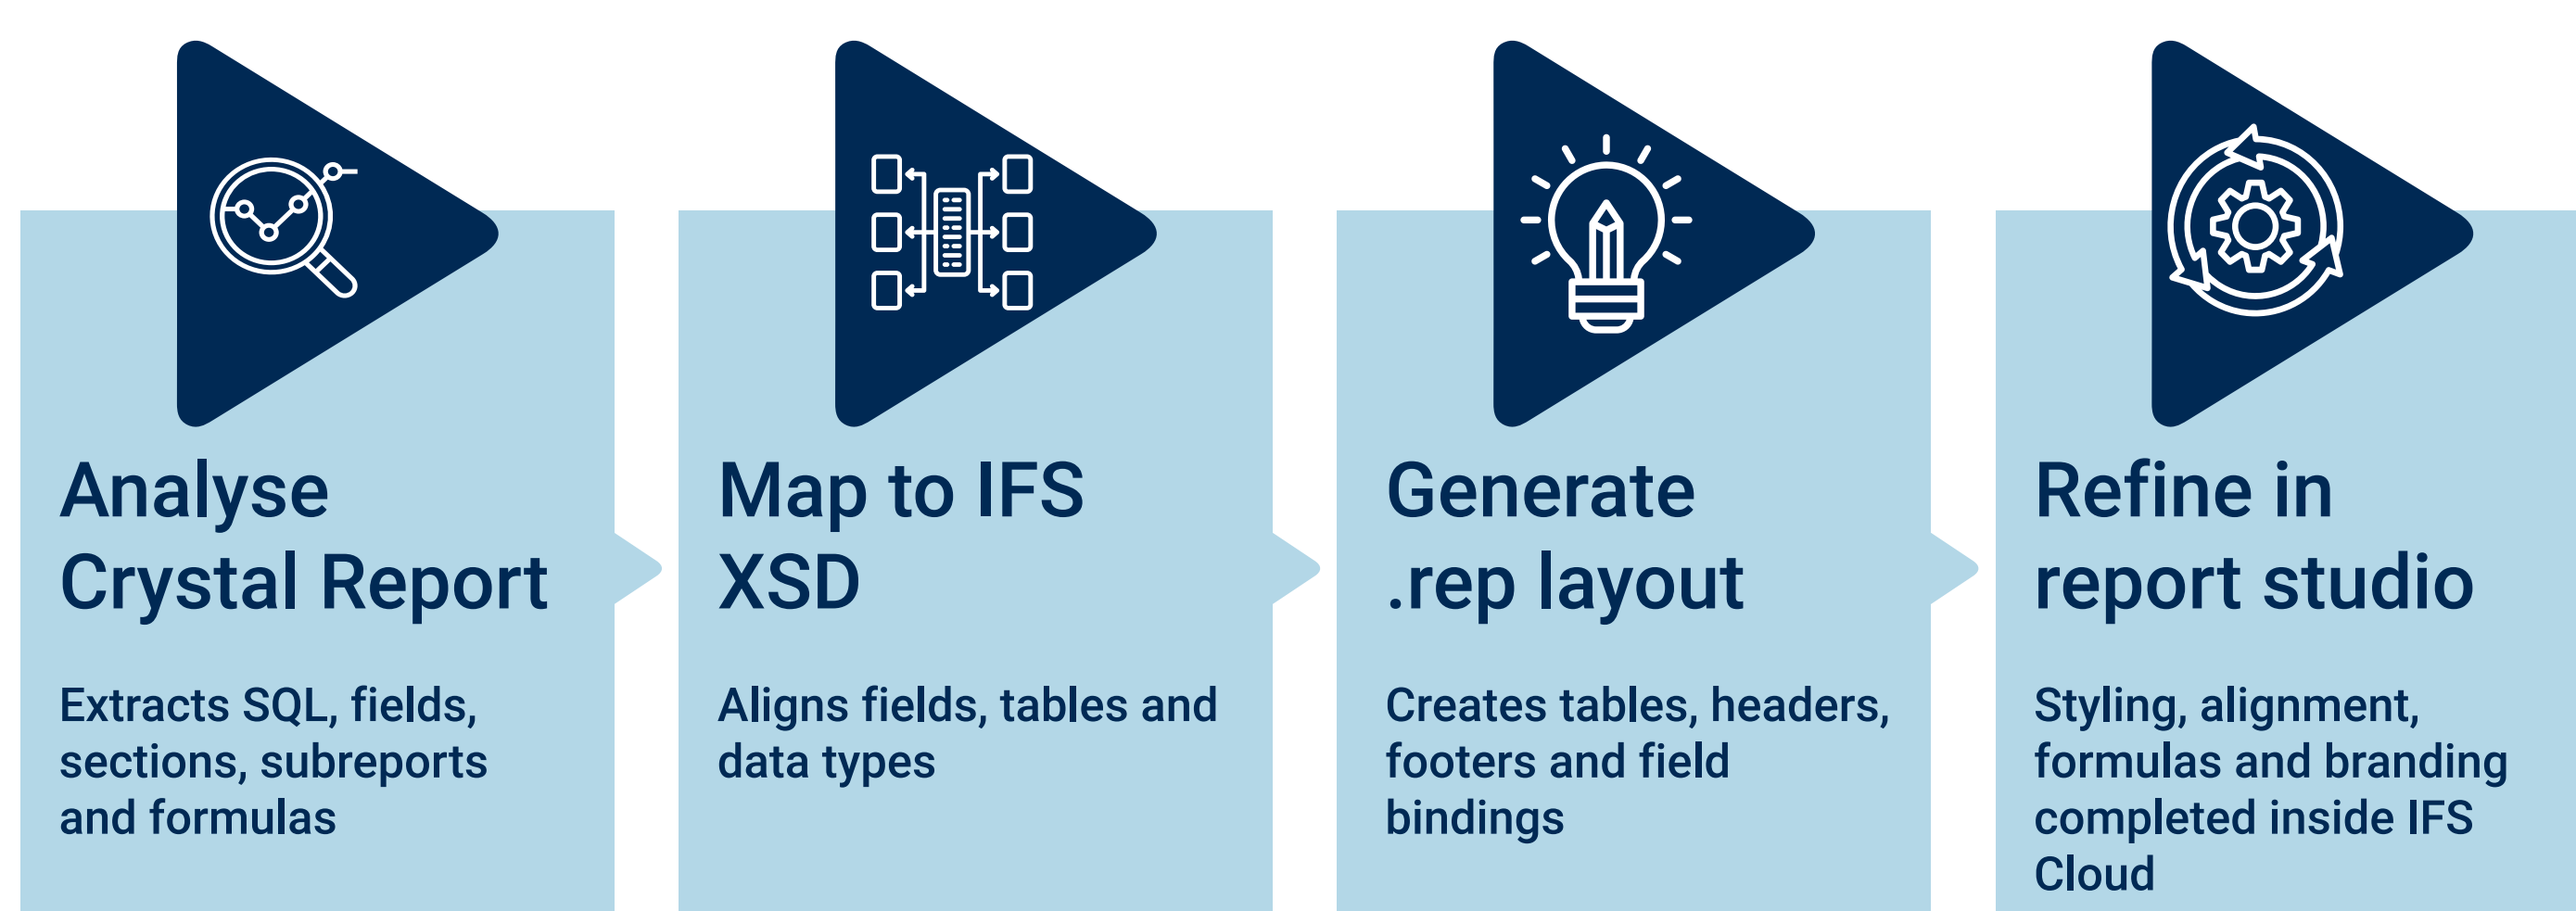

The Platned solution

A managed Crystal to IFS Cloud Report Studio migration service

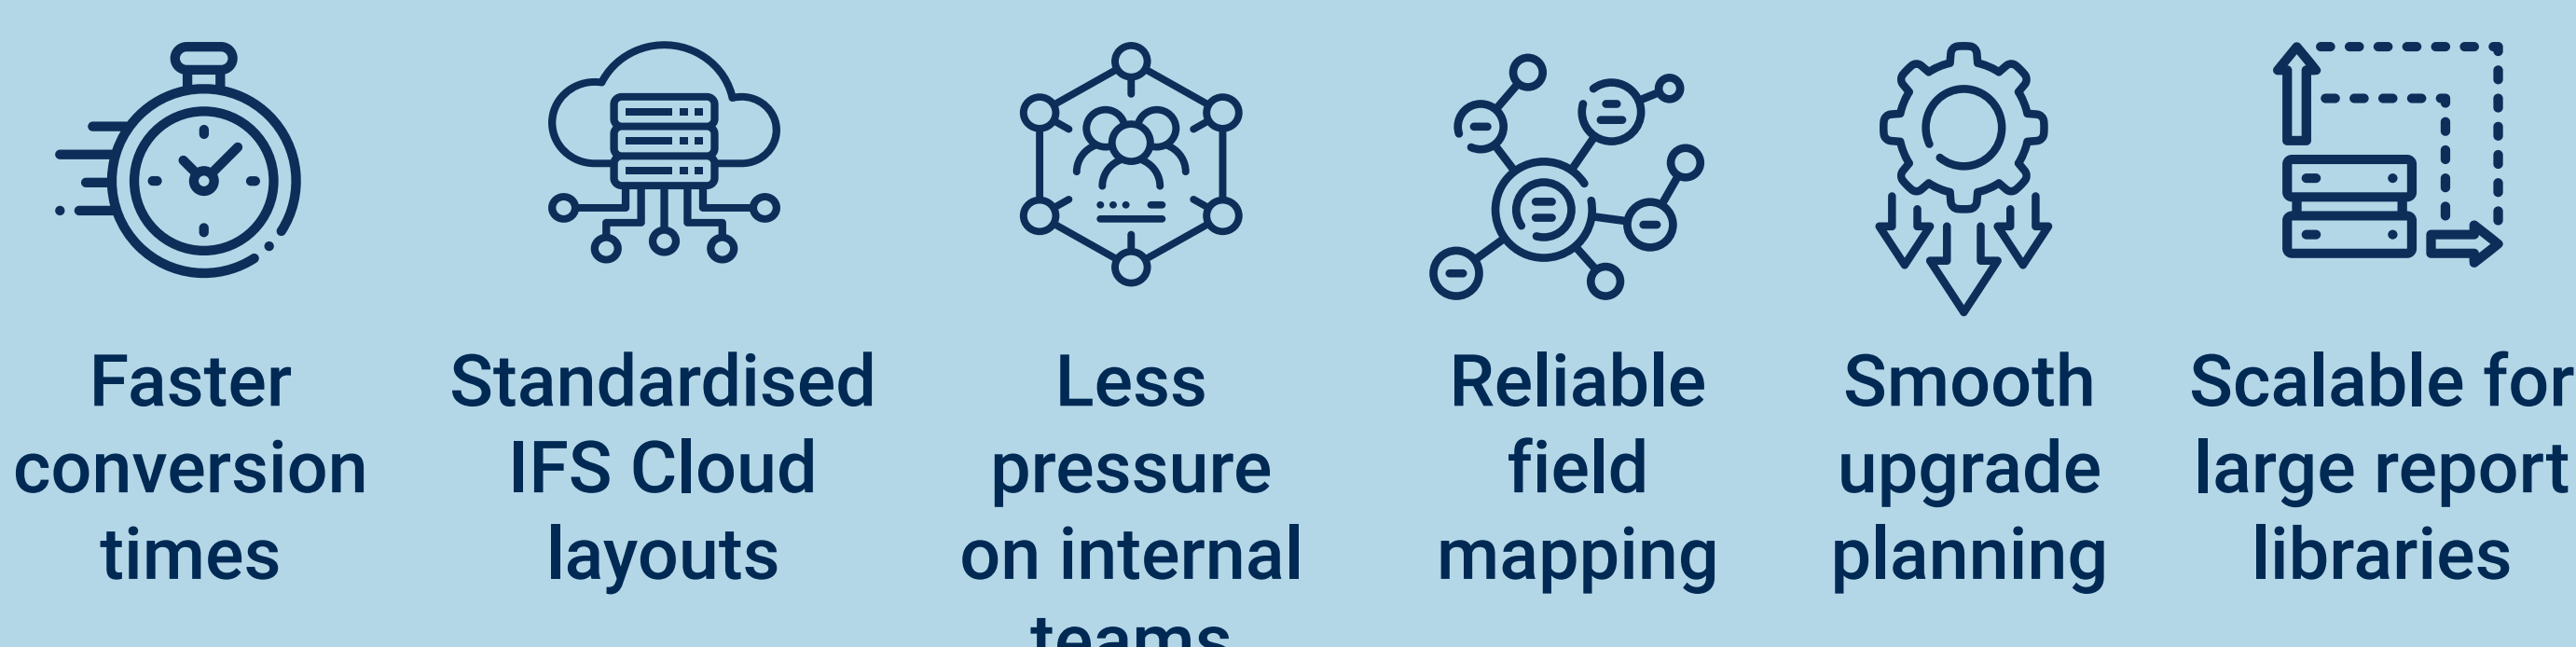

- Automates up to 60 percent of report conversion
- Converts Crystal structure into IFS Report Studio format
- Aligns fields using the IFS XSD schema
- Produces import-ready .rep layouts
- Reduces effort for internal teams

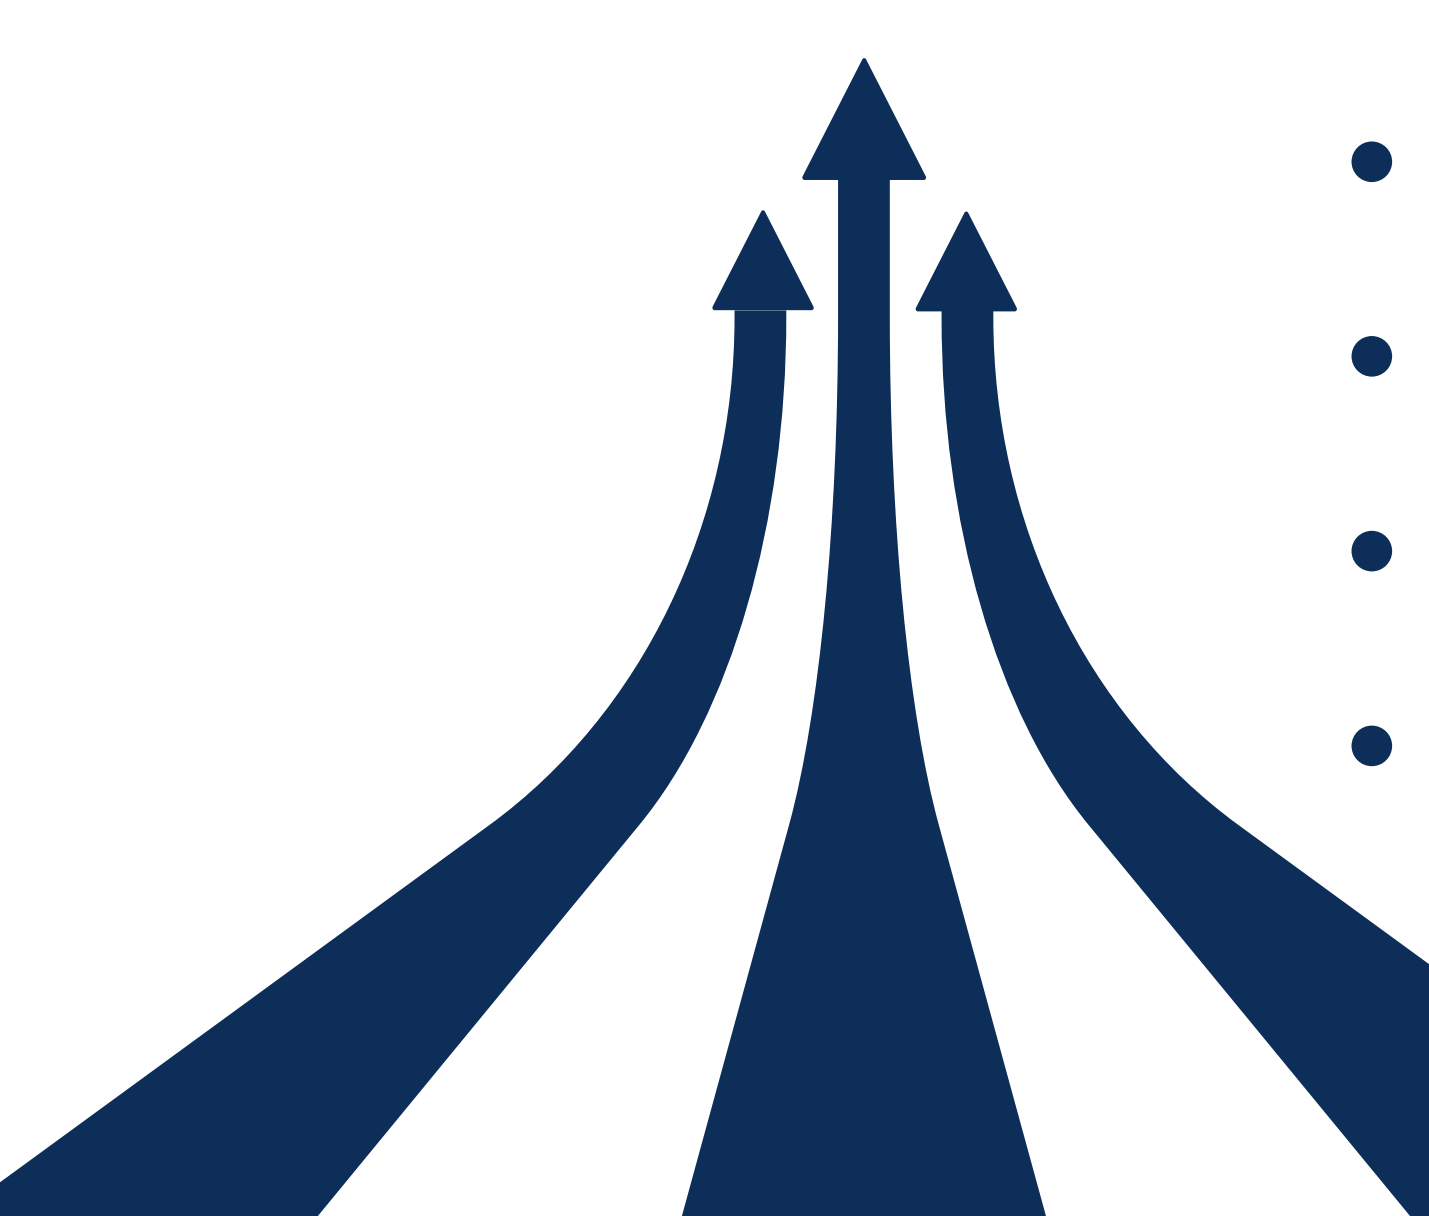

How the conversion works

What you gain

Looking ahead

- Crystal Reports removed in IFS Cloud 25r2
- IFS Report Studio becomes the standard for operational reporting
- Platned supports your reporting modernisation from end to end
- Reduces effort for internal teams

Platned is an IFS gold services partner.

Contact us to make your Crystal to IFS Cloud Report Studio migration faster, simpler and more predictable.
